Isn't it terrible to be bored to tears by a friend's dull family movies? We think so. That's why Sears went to Hollywood veteran actor-producer Vincent Price. We asked him to write screenplays and a director's manual that would help *our* friends use dramatic Hollywood techniques with a minimum of equipment and experience. He came up with a blockbuster of an idea.

Mr. Price developed and wrote a 58-page manual that teaches basic—but dramatic—techniques . . like editing, continuity, acting, titling, costuming, trick shots, night photography and many more. He gave us illustrated scripts that could be produced at home with a minimum of equipment, yet would be dramatic and professional-looking. We added props, costumes, a make-up kit—even a marquee for your 40-in. screen (not included)—and came up with the Vincent Price scenario kits.

It gives you everything you need to make really good home movies the first time around . . *and have loads of fun doing it!*

No cost has been spared to make this book one of the most beautiful of all time. Its purpose—to bring the Bible back to its ancient and rightful place as the center of family living and thought.

"The Bible is the world's greatest work of literary art, and Michelangelo is the artist who best visualized its stories, capturing all their grandeur and majesty. I often thought of an ideal volume that would combine the two. Nearly two years ago, Sears gave me the opportunity.

"We went to great lengths to make this book worthy of its contents. For example, the presentation box is adorned with a view of the Sistine Chapel ceiling. Over 300 pictures were taken to produce it. And it is as close to the original as possible—printed in full color and surrounded with a gold-color background.

"All the artwork—121 pages—was printed by Albert Skira, of Geneva, Switzerland—the world's finest art printer. Photography teams logged thousands of miles all over Europe to achieve these great reproductions.

"The illustrations are accompanied by my explanatory text to show how vital a part the great Biblical stories played in the creation of Michelangelo's masterpieces.

"I feel privileged to have helped produce this work, and believe you can take great satisfaction in its ownership. Were Michelangelo alive today, I think he, too, would take pride and pleasure in it."

Vincent Price

Truly unique . . because it's the first man-made bed that *really* plays like the thick, solid slate beds used on tables costing twice as much. 2½ inches thick, it's built like a sandwich: rock-hard top and bottom layers of a slate-like material bonded to a honeycomb core of stiff fiber.

So smooth . . thanks to its seamless, one-piece construction. Most slate beds consist of two or more sections.

So strong . . the bed can easily support over 3,000 pounds by actual test. An ordinary composition bed this strong would be so heavy it would sag under its own weight.

So rigid . . it needs no bed levelers to compensate for warping or twisting. You can even put this table in your basement if you want—balls still roll straight as an arrow after the muggiest summer or driest winter.

5-year Bed Guarantee . . if under normal usage surface of bed should vary more than 30/1000 of an inch from level within 5 years of purchase date, Sears will adjust or replace bed free of charge.

Here's a table with a genuine slate-topped bed that's priced lower than many tables we have offered with an all-composition bed. It's much harder and a lot quieter than composition and will not warp

7-foot model $299.50 — 8-foot model $325.00

Steel-braced bed has a top layer of ¼-inch Italian slate bonded to ¾-inch flakeboard. Levels quickly, easily in all directions
Teakwood-grained finish with white trim and turquoise cloth makes this table a handsome addition to any game room. Pro-size gum rubber cushions. Hardwood frame. 100% wool billiard cloth. Braced pedestal legs fold under bed, boast saucer-size levelers for added stability. Dual returns deliver balls to front of table. Includes two 57-inch cues with inlaid handles, 16 balls (2¼-inch diameter) with fade-proof colors and numbers, bridge attachment, triangle, built-in score counters, chalk and rule book.

NYLON CORD
makes these
nylon-vinyl Basketballs
outlast other types

The strength is in the winding. We start with the best butyl rubber bladder. Nylon cord is then wound, yard after yard, around the bladder by precision machines that make sure each strand is applied in a series of patterns to give perfect coverage. The nylon is then sealed to keep each strand in place and the tough vinyl outer cover is finally bonded to ball. The result is a springier, longer playing ball . . no matter if it's used on a gravel, cement or hardwood court. And each is OFFICIAL in size, weight, shape and feel.

The best ways to send money are by post office money order, express money order, by bank draft or check. Don't send currency or postage stamps. Your mail carrier will buy a post office money order for you if you live on a rural route. You can also get a money order at your post office or from your local express agent.

IMPORTANT ABOUT PRICES

You always get our lowest prices . . if the price of any item in this catalog is reduced in another current Sears Catalog, we will fill your order at the lower price and return every penny of the difference to you. Regardless of which Sears Catalog you order from, you always get the benefit of the lowest current catalog prices.

Should the Federal, State or Local Governments increase or impose additional taxes after this book goes to press, we reserve the right to add such taxes to the prices shown. On the other hand, if any of the existing taxes are reduced or terminated while this catalog is in effect, we shall adjust our prices accordingly.

Prices in this catalog apply only to orders placed by mail, telephone, telegraph or in person at a Sears Catalog Sales Office, Retail Store Catalog Sales Department or in one of Sears Affiliated stores.

CREDIT TERMS

When ordering on Sears Credit Terms (see pages 352 to 354), check the proper square at the bottom of order blank. Have head of the household answer the questions on the back and sign his or her name. If you are adding on to an Easy Payment or a Revolving Charge Account, show your account number and the name of the store carrying your account.

C.O.D. MAIL ORDERS

For economy's sake we urge you to send a money order or check with your mail order, or to use Sears Credit Terms. On parcel post C.O.D. shipments, the Post Office charges you a C.O.D. collection fee. They also charge you a money order fee for sending payment to us.

We do not ship C.O.D. orders for seeds, live animals or birds, perishable goods or for merchandise cut, engraved, printed, or made to order; for merchandise shipped direct from factory or shipped to foreign countries or to anyone other than person sending order.

SEARS WILL SHIP MERCHANDISE OVERSEAS

Shop from this or any Sears Catalog by mail or in person at a Sears unit near you. Our Export Department is devoted exclusively to overseas orders . . . has expert knowledge of packing, crating, routing, insurance, etc. Complete documentation and all details are handled at a minimum cost.

Sears can ship to individuals and groups in dozens of countries in Europe, Latin America, Near East, Africa and Asia.

We suggest that you allow adequate time for overseas shipments. It may take from 30 to 60 days for your order to reach certain countries after it is approved and accepted for shipment.

Contact any Sears Catalog Sales Office, Catalog Order Plant, or Catalog Sales Department of Sears Retail Stores for all information.

HOW TO FIGURE PARCEL POST CHARGES

Packages weighing up to 70 pounds and measuring not more than 100 inches in combined length and girth can be sent by parcel post in all parcel post zones, except when mailed at a first class post office and addressed for city delivery to another first class post office.

Parcel post weight limits on packages mailed between first class post offices and addressed for city delivery, are 40 pounds to the Local, 1st and 2nd Zones; and 20 pounds to Zones 3 to 8. The size limit is 72 inches length and girth combined.

Not a Penny to Pay Until February when you buy these appliances on credit

It's true! There's never a down payment at Sears—and from now to Christmas you can buy any of the items listed below—and not even make a monthly payment until February:

RANGES
WASHERS
DRYERS
RADIOS
ORGANS
TELEVISIONS
REFRIGERATORS
DISHWASHERS
SPACE HEATERS
VACUUM CLEANERS
AIR CONDITIONERS
PHONOGRAPHS
RECORDERS
FREEZERS
FLOOR POLISHERS
SEWING MACHINES
DEHUMIDIFIERS

This applies to merchandise bought from this book or any other current Sears catalog

If you have an account, your payments will remain the same until February.

If your additional purchases require an increase in payments it will not take effect until February. (Deferred monthly payments do not apply to merchandise bought on a Sears Revolving Charge Account.)

To make your buying easier than ever..

OPEN A SEARS REVOLVING CHARGE ACCOUNT

No money down or minimum purchase required when you use this account. Pay your charge each month within 30 days of the billing date with no service charge, if you wish—or, if you prefer, stretch your payments out over months. If you choose to do this, your monthly payments ($10.00 minimum) will go up or down, depending on your outstanding balance. (See schedule of monthly payments on following page.) A small service charge will be added each month.

WHEN YOU SAY "CHARGE IT" SHOPPING IS MUCH MORE CONVENIENT

YOU NEVER NEED TO FIGURE DELIVERY CHARGES—WE PREPAY THEM. Sears own people will figure postage, freight or delivery charges on your order—send your package off to you prepaid, and add the charges to your account.

YOU DON'T NEED TO KEEP MONEY ON HAND TO PAY C.O.D. CHARGES. Because the entire amount has been charged, you don't need to pay our driver. Leave home for the day if you wish; a note will tell the Sears driver to leave your package at a neighbor's.

PICKING UP YOUR ORDER IS EASIER. No delay or money to pay. Your identification card shows you are a "charge customer."

ANY SEARS STORE OR OFFICE NATIONWIDE WILL RECOGNIZE YOUR CREDIT STANDING. Wherever you are in all these United States your credit is good—on vacation, on business trips, in any place there is a Sears unit. Just show your revolving CHARGE ACCOUNT identification. Sears will be glad to take your "Charge" order wherever you are!

WE SEND YOU A STATEMENT OF YOUR ACCOUNT EVERY MONTH. Makes bookkeeping so much easier for you—a record of your purchases is always available.

YOU CAN OPEN YOUR ACCOUNT NOW—AND ORDER LATER. There is no need to send an order when you open your account . . . open it now—we will send you your identification. You can start using it whenever you wish.

IT'S EASY TO START YOUR ACCOUNT—HERE'S HOW— Simply fill in the application and sign the agreement on the other side of this page—send it to Sears. Or you may open an account by telephone—just by calling the most convenient Sears unit. Tell our phone clerk you want to open a revolving CHARGE ACCOUNT; she will take your application and your order at the same time, if you wish. Or visit any Sears store—they will gladly answer any questions you may have and fill out your application for you.

Service contracts and charges for service and installation of Sears merchandise may also be added to your account.

SHIPPING INFORMATION

PARCEL POST SHIPMENTS: On all articles for which you pay shipping charges, the shipping weight is given in the catalog description. Enter the total shipping weight for each article in the shipping-weight column of the order blank. Add the pounds and ounces, then change ounces to full pounds (16 ounces equals 1 pound), and enter total weight in pounds. The post office counts fractions of a pound as a full pound and charges postage accordingly. For example: If your order totals 6 pounds and 30 ounces, allow postage for 8 pounds (30 ounces equals 1 pound and 14 ounces, therefore 1 pound 14 ounces plus 6 pounds equals 7 pounds 14 ounces and the post office will charge for 8 pounds).

See chart at right. If you live in Zone 3 or within 151 to 300 miles from Catalog Order Plant, the amount of postage to allow for 8 lbs. is 81c. If you send more than the effective parcel post rates, we will return the extra amount.

FREIGHT OR EXPRESS SHIPMENTS: It is not necessary to send money to pay for freight and express shipping charges in advance. You pay shipping charges to agent at your freight station when goods are received. However, if there is no agent at your freight or express station, please include additional money with your order to prepay shipping charges. While express is faster, freight is the most economical way to ship heavy, bulky merchandise. Before marking method of shipment on order blank, compare freight and express rates in your Sears Big Catalog.

TRUCK SHIPMENTS: Not all trucking companies make deliveries to a home address. This can be verified by checking with your trucking company's local agent.

If shipment is to be made to your home and you live outside of town, also give your highway route number and some identifying landmarks.

It is not necessary to send money to pay for truck transportation charges on your order. You pay shipping charges to truck driver when goods are received.

HOW TO SEND MONEY: The best way to send money is by post office money order, express money order, or by bank draft or check. The mail carrier will buy a post office money order for you if you live on a rural route. It is better not to send coins or paper money with orders, but should it be necessary, be sure to send your order by registered mail.

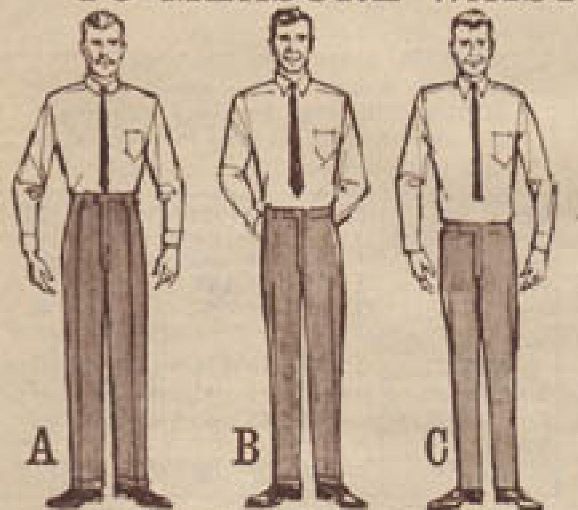
How to measure for men's Clothing

Measure carefully every time you order . . your measurements may have changed since your last order. Be sure the garment you want comes in the size you require . . not all items are offered in every size. If measurements fall between sizes, order the larger size.

HOW TO MEASURE CHEST . .

Your actual *chest* measurement determines the size you wear for a majority of men's clothing items . . from underwear to outerwear.



Measure around chest, well up under arms and over the tips of shoulder blades. For most accurate results have someone else take your chest measurement. Hold tape snug, but not tight.

For knit shirts, pajamas and robes, underwear, measure chest over undershirt.

For work clothes, jackets, sweatshirts and casual outerwear, measure over clothing you normally wear underneath.

For suits, sport coats, dressy outerwear, and sweaters, measure chest over shirt. Do not make allowances. For example: a man with a 40-inch chest measurement should order size 40 for both a suit and a topcoat.

TO MEASURE WAIST

A B C

Measure over well-fitting slacks with belt removed, in position usually worn. Hold tape snug—not tight. Measure over same style of slacks desired.

A Full-cut slacks are usually worn at natural waistline. Measure at regular beltline, just above hip bones.

B Slim style slacks are worn at the hips, just below the waistline. Measure around the top part of hip bones.

C Western-style slacks and jeans and very tapered models ride low on the hips. Measure about 1½ in. below natural waistline.

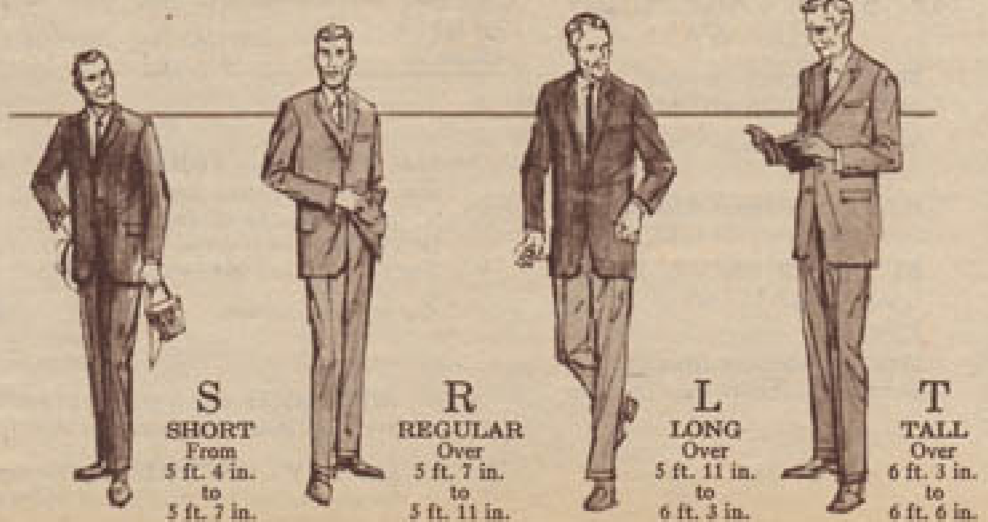
TO MEASURE INSEAM . .

Measure a pair of well-fitting slacks of the same style you plan to order. Lay the slacks flat on a table, fold back one leg (as illustrated) and measure along the inseam from the crotch seam to bottom of the cuff.

Or, if you prefer, have someone measure you while you are standing in a relaxed position with slacks at waist position you like to wear them.

Measure from well up in crotch, down the inseam to bottom of cuff or to length desired.

MEN'S SHIRTS . .



Where specific sleeve length is required in ordering men's dress, sport or work shirts, bend elbow and have someone measure the number of inches from middle of back of neck, across shoulder and around point of elbow to wrist. For neck size, measure number of inches around neck at about the middle of neck.

Where specific sleeve length is not necessary, number of inches around middle of neck is your size. If between sizes, you should order the larger size.

TO MEASURE HEIGHT . .

Measure from top of head to floor while standing against wall in your stocking feet. Have someone take this important measurement to insure that correct height is determined.

Finely tailored clothing is proportioned to HEIGHT; this measurement is usually indicated by the letter S, R, L or T after the chest or inseam measurement. These symbols show whether a man is Short, Regular, Long or Tall. Example: a man 5 ft. 10 in. in height, with a 40-inch chest, 35-inch waist, and 31-inch inseam, orders suit size as "40R-35-31." For slacks, height symbol follows inseam, as "35-31R."

S SHORT From 5 ft. 4 in. to 5 ft. 7 in.

R REGULAR Over 5 ft. 7 in. to 5 ft. 11 in.

L LONG Over 5 ft. 11 in. to 6 ft. 3 in.

T TALL Over 6 ft. 3 in. to 6 ft. 6 in.

FIT is a part of fashion in women's Apparel

Sears fashions fit the majority of women beautifully because they are based on a scientific study of body measurements. Please make sure that the size you wear is offered in the particular style you are considering. If your measurements fall between two sizes, order coats and toppers in the smaller size; order all other apparel in the larger size.

Massive 5½-foot door-model Consoles

Only our finest furniture stylings—Sorrento and Deauville—would do for these dramatic pieces. The fine metal grillwork and tastefully chosen draperies at each sound chamber are luxury touches—just as the antique brass-finish door pulls are.

Fine as the choice cabinet woods and beautifully grained veneers are, we still insist on some 19 hand-finishing steps to achieve just the right shading and "antiquing" we want . . and you can see for yourself the artistry that goes into the carving of legs and arches.

Look how little it costs to enjoy fast, easy SPRAY-STEAM ironing

$13.66

Why go on ironing the tedious dry-iron way when you can do the biggest part of it by steam? It's so much easier and there isn't that much difference in cost.

This steam-spray Kenmore rates high as an exceptional value for one important reason—its spray pump has a non-clog feature that is found only in Sears spray irons. Most spray pumps get clogged from time to time—this prevents that nuisance forever.

Heat control dial tells you the correct setting for the fabric you are ironing. Beveled-edge, polished aluminum soleplate simplifies ironing pleats, ruffles and around buttons. 8-oz. water tank permits steam ironing wash-and-wears for over 30 minutes without a refill. Has extra-large opening for easy filling.

Light, weighs only 3¼ pounds. Chrome-plated with black plastic handle, trim. 6-foot cord is center-mounted for right or left-hand ironing. 1000 watts.

Our Best

SPRAY-STEAM IRON

SECOND TO NONE

The arrows on the dial show this iron can steam iron everything from delicate, low-heat wash-and-wears to hard-finish denims and linens. Based on our lab tests, it is the only one of the five leading steam irons that can do this. The others required switching to dry ironing and sprinkling because they couldn't produce effective steam at the upper and lower temperature ranges. In our opinion, this full-range, variable steam control makes this Kenmore your best buy, regardless of price.

$17.50

Variable-steam control (see at left) is the *Big* plus you get with this iron but there are many other superior features—

King-size 10-ounce tank that lets you steam iron wash-and-wears for a full hour without refilling. All of the other leading steam irons have 7½ to 8-ounce tanks—their steaming time, as a result, is considerably less.

Non-clogging spray pump, another Sears exclusive. Eliminates the common complaint of pump clogging. *Extra long, extra strong, 8-foot cord.* Improved construction has greatly increased its life. Adapts for right or left-hand use.

All-around beveled aluminum soleplate glides around buttons, simplifies ironing ruffles and pleats. Super-smooth mirror finish. Fabric guide to tell you where to set dial for fabric type. Lightweight, weighs only 3¼ pounds. 1200 watts.

HOMEMAKERS WHO OWN ONE SAY

they use their Electric Can Opener oftener than any

These three not only open cans electrically, they sharpen knives electrically, too

As recently as 1960 very few people owned an electric can opener—or even knew there was such a thing—yet today it is one of the five most popular Christmas gift appliances. These three are doubly desirable because they combine two appliances into one. Not only do they do a quick, slick job of opening any standard size can, they'll put a keen edge on cutlery in seconds (number (2) even sharpens scissors!). Whichever you choose, you can be sure it will be most welcome.

ENAMELED BASE

When comparing blenders, look first for power—
More power means faster, more thorough blending. This is the only blender we know of with a ½-HP, five-speed motor. Less powerful models take longer to do the job, can't handle as much food at one time and tend to slow down in heavier mixtures.

When comparing, check these features, too:

44-oz. all-glass jar with 2-piece add-a-bit lid for adding foods while unit is running.

Tri-level, stainless-steel cutting blades for superior blending, easier cleaning.

Threaded collar that fits mason jars as well as big glass jar. Permits you to blend and store foods in same container.

Detachable base for easy emptying and cleaning. Just push any non-pourable foods out through the bottom of the glass container.

Spring-action coil cord, takes up less space. Recipe booklet included. 380 watts.

Take a good look at your fireplace—now. Does it add to the appearance of the room? If not, here's a wonderfully *low cost* opportunity to frame it in truly eye-catching beauty this Christmas. All three are designed to attach quickly and rigidly with a pressure fitting that eliminates all drilling. Leaves hearth uncluttered and never has to be lifted aside for cleaning. Curtain is fine-meshed, rugged construction in black color and has an easy-glide pull-chain control. Available in a variety of sizes and finishes, with or without bottom fender.

1 **De luxe Hood.** No visible seams, looks as if it were all one piece. Massive, curved hood projects 3 inches. Fender is 4 in. high, has angled, wrap-around ends. Choice of three finishes: *state color number* 1 (polished brass); 2 (antique brass); 3 (antique copper).

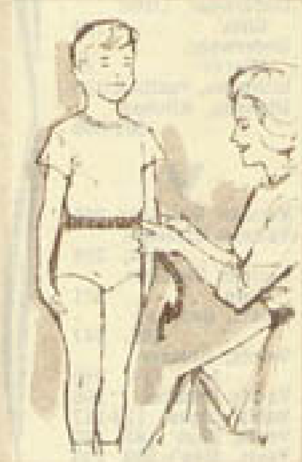
Boys and Girls Grow Rapidly

MEASURE EVERY TIME YOU ORDER

Order by Size—Not by age



HERE IS THE PROPER WAY TO TAKE EACH MEASUREMENT

HEIGHT: Most important measurement for determining size.
Be sure to measure without shoes.

CHEST: Measure around body at fullest part of chest. Hold tape firm but not tight. Be sure tape is straight across back. Stand naturally.

WAIST: Measure around smallest part of natural waistline. Hold tape firm but not tight.

HIPS: Stand naturally with feet together. Measure in straight line around body at fullest part of hips. Hold tape firm but not tight.

HEADWEAR: Measure around head above ears. If measurement is between sizes, you should order next size larger.

WEIGHT: Should be taken in underwear.

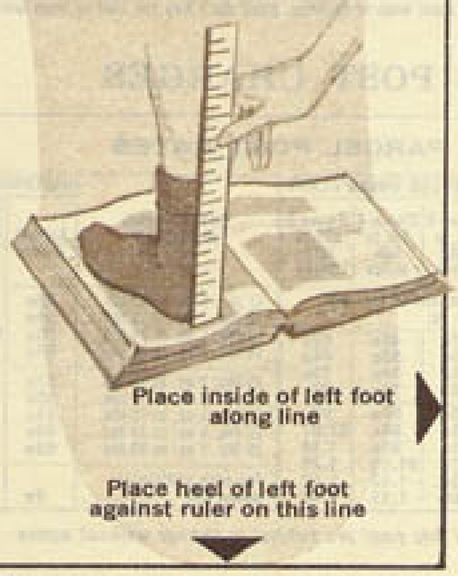
USE THIS CHART TO MEASURE CHILDREN'S FEET

1st

Place the chart on the floor. Have child seated naturally, NOT STANDING.

2nd

Measure left foot wearing sock or anklet without shoe. Place back of heel against ruler held on bottom line. Make sure inside of foot is along line at right.



3rd

For size number: press child's toes gently on the chart. Read size number directly above longest toe. If it falls half way between 2 numbers, always take the larger number as child's size.

PLEASE NOTE: Do not make an extra allowance for growth. Sears Biltwel shoes are sized to give child's foot ample room for growth.

Research over a period of years has shown that during growing "spurts" a child's foot can increase rapidly in size.
For example:
If age is 2 to 6 years, shoe size can increase in 4 to 8 weeks.
If age is 6 to 10 years, shoe size can increase in 8 to 12 weeks.

Place inside of left foot along line

Place heel of left foot against ruler on this line

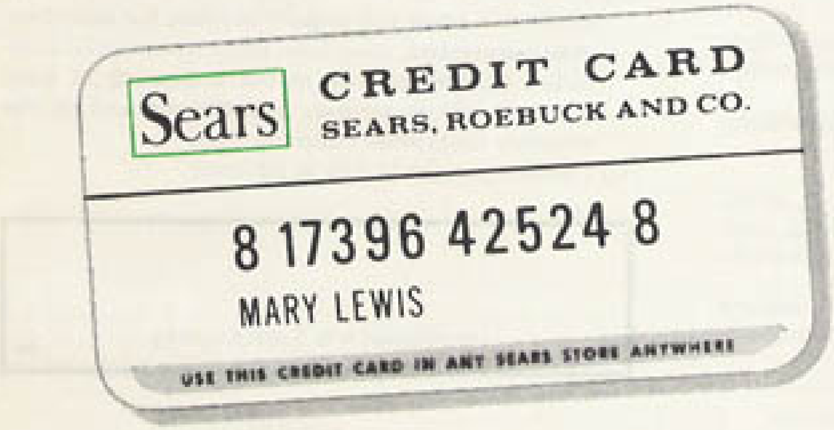
OUR SPECIAL CHRISTMAS SEASON OFFER

Not a penny to pay until February

when you buy appliances on Easy Payments

It's true! There's never a down payment at Sears—and from now to Christmas you can buy any of the items listed below—and not even make a monthly payment until February:

RANGES
WASHERS
DRYERS
RADIOS
ORGANS
TELEVISIONS
REFRIGERATORS
DISHWASHERS
ROOM AIR CONDITIONERS
PHONOGRAPHS
RECORDERS
FREEZERS
FLOOR POLISHERS
SEWING MACHINES
DEHUMIDIFIERS
VACUUM CLEANERS



This applies to merchandise bought from this book or any other current Sears catalog.

If you have an account, your payments will remain the same until February.

If your additional purchases require an increase in payments it will not take effect until February. (Deferred monthly payments do not apply to merchandise bought on a Sears revolving Charge Account.)

is so easy WHEN YOU USE SEARS NO-MONEY-DOWN CREDIT PLANS

USE SEARS revolving CHARGE ACCOUNT

The plan with the convenient Credit Card makes all your shopping (especially by Phone) so simple . . .

No money down or minimum purchase required when you use this account. Pay your charge each month within 30 days of the billing date with no service charge, if you wish—or, if you prefer, stretch your payments out over months. If you choose to do this, your monthly payments ($10 minimum) will go up or down, depending on your outstanding balance. (See schedule of monthly payments on following page). A small service charge will be added each month.

You never need to figure delivery charges—we prepay them. Sears own people will figure postage, freight or delivery charges on your order—send your package off to you prepaid, and add the charges to your account.

You don't need to keep money on hand to pay C.O.D. charges. Because the entire amount has been charged, you don't need to pay our driver. Leave home for the day if you wish; a note will tell the Sears driver to leave your package at a neighbor's.

Picking up your order is easier. No delay or money to pay. Your credit card shows you are a "charge customer."

Any Sears store or office nationwide will recognize your credit standing. Wherever you are in all these United States your credit is good—on vacation, on business trips, in any place there is a Sears unit. Just show your revolving Charge Account card. Sears will be glad to take your "Charge" order wherever you are!

We send you a statement of your account every month. Makes bookkeeping so much easier for you—a record of your purchases is always available.

You can open your account now—and order later. There is no need to send an order when you open your account . . . open it now—we will send you your card. You can start using it whenever you wish.

It's easy to start your account—here's how— Simply fill in the application and sign the agreement on the other side of this page—send it to Sears. Or you may open an account by telephone—just by calling the most convenient Sears unit. Tell our phone clerk you want to open a revolving Charge Account; she will take your application and your order at the same time, if you wish. Or visit any Sears store—they will gladly answer any questions you may have and fill out your application for you.

Service contracts and charges for service and installation of Sears merchandise may also be added to your account.

SHIPPING INFORMATION

PARCEL POST SHIPMENTS: On all articles for which you pay shipping charges, the shipping weight is given in the catalog description. Enter the total shipping weight for each article in the shipping-weight column of the order blank. Add the pounds and ounces, then change ounces to full pounds (16 ounces equals 1 pound), and enter total weight in pounds. The post office counts fractions of a pound as a full pound and charges postage accordingly. For example: If your order totals 6 pounds and 30 ounces, allow postage for 8 pounds (30 ounces equals 1 pound and 14 ounces, therefore 1 pound 14 ounces plus 6 pounds equals 7 pounds 14 ounces and the post office will charge for 8 pounds).

See chart at right. If you live in Zone 3 or within 151 to 300 miles from Catalog Order Plant, the amount of postage to allow for 8 lbs. is 81c. If you send more than the effective parcel post rates, we will return the extra amount. Be sure to show your parcel post zone number.

FREIGHT OR EXPRESS SHIPMENTS: While express is faster, freight is the most economical way to ship heavy, bulky merchandise. Before marking method of shipment on order blank, compare freight and express rates in the yellow section of Sears Big Fall Catalog.

When ordering on Sears Revolving Charge Account or Easy Payment Plan, shipping charges are added to your account. No need to figure shipping charges.

NOTE: On cash orders, if there is no freight agent in your town, include money with your order to prepay shipping charges.

TRUCK SHIPMENTS: Not all trucking companies make deliveries to a home address. This can be verified by checking with your trucking company's local agent.

If shipment is to be made to your home and you live outside of town, also give your highway route number and some identifying landmarks. Trucking companies frequently make additional charges for second delivery. Avoid this by arranging to have someone accept shipment when merchandise is delivered.

On cash orders it is not necessary to send money to pay for truck transportation charges on your order. You pay shipping charges to truck driver when goods are received.

HOW TO SEND MONEY: The best way to send money is by post office money order, express money order, or by bank draft or check. The mail carrier will buy a post office money order for you if you live on a rural route. It is better not to send postage stamps, coins or paper money. If it should be necessary, be sure to send your order by registered mail.
